

Lake Washington Schools Foundation

Lake Washington Schools Foundation News November 2016

We are thankful for you!

During this month of giving thanks, Lake Washington Schools Foundation would like to express our gratitude to all our wonderful teachers, parents and community members for your support of the foundation.

With your help:

High school students are working with kilns in a new 3D art class that teaches sculptural techniques that include clay/ceramics - *3D Art Kiln, Eastlake High School*

Elementary school teachers are using an online assessment program that measures student's grade level in reading and math, so students can succeed and teachers have access to data which helps plan appropriate instruction – *STAR Reading & Math, Muir Elementary*

Middle school students are using new tools to make close observations, collect data and draw conclusions in science – *Using Scientific Tools for Observation, Renaissance Middle School*

These programs would not be possible without your support! It's not too late to [donate](#) to our fall campaign. Help us reach our goal of \$80,000 so we can help more students, in more schools.

Happy Thanksgiving from Lake Washington Schools Foundation!
