**Lake Washington Schools Foundation News**

THANK YOU! Thank you to all our guests who came out this past week to support public education at the Spring for Learning Luncheon and Breakfast! Students spoke of their education in our district and the teachers that have inspired them to learn, grow and achieve. Teachers for the New Teacher Support Program spoke of the Peer Mentor program, funded by the foundation and guests heard first hand from teachers and parents how the Natural Leaders program has positively impacted families in our district. Your support helps the LWSF raise funds to make sure our students continue to receive the top quality education they deserve.

A special thank you to Dr. Traci Pierce, who announced the launch of the Innovation Fund, which will support bringing successful programs currently available at classroom levels to our entire district. Click [here](#) to learn more.
