7pm to 8:30pm

Whether you have son or daughters or both...gain a better understanding of the social changes for children between elementary, middle and high school.

Learn about the influence that social media and other electronic devices have upon your children and how it affects their view of friendships.

Signs that parents may need to be more directly involved.

Learn what language best facilitates open communication with their children.

Take away some specific questions and prompts that you can use with your children right away.

As a parent of two young adults, Ms. Clayton believes that cultivating a sense of humor during her daughters' adolescent years made those years much more enjoyable.
